

SMITH brothers

Case Study

Solar Connections:

Parsonage Wood 5MW Solar Farm
Western Power Distribution (WPD)

Construction Dates: August 2016 to November 2017

To complete a 7.5 kilometer private wire 33kv connection from North-moor 132kv Primary. The cable route is through mainly unmade land, with three horizontal directional drills: 1 x Main A road, 2 x water courses. Smith brothers have installed a 33kv 240mm core NKT AXAL cable, with around 19 specially made smith brothers approved cable joint. Smith brothers commissioned the 33kv primary ABB ZX.02 board.
